

Hardware Recommendations

Students will need access to a desktop, laptop, or mobile device. While a smart phone will work, it is not an ideal option as your student may need access to their Office365 accounts for word processing and other programs. Please note, if you must use a mobile device, the Canvas app works best with iOS.

Recommended Hardware (minimum):

- CPU: 2GHz processor or faster
- Hard Drive: 20 GB of available disk space
- Memory: At least 1GB of RAM (4GB is recommended)
- Video: 1024X769 screen resolution is recommended
- Monitor: 15" LCD or Widescreen is recommended
- Audio: Sound card with speakers or headphones (headset with microphone recommended)
- Broadband connection
